

PROFILE

Short-term: Excel in university studies and undertake a software engineering internship to master production workflows and build impactful digital products.

Long-term: Pursue a Master's degree to strengthen academic foundations; concurrently advance as an Independent Full-Stack Engineer (Freelancer) building premium end-to-end technology solutions.

SKILLS

Languages

JavaScript · TypeScript · Java · Python · HTML/CSS · SQL

Frontend

React · Next.js · React Native (Expo) · Tailwind CSS · PWA · Capacitor

Backend & data

Node.js · Express · REST APIs · WebSocket · MongoDB · Firebase/Firestore · SQLite

DevOps & integrations

Git · Vercel · Render · Cloudflare · Netlify · Google OAuth · Cloudinary · Facebook Graph API

Soft Skills

Team Leadership · Product Ideation · Public Speaking · Event Coordination · Problem Solving

EDUCATION

Greenwich Vietnam	2023-2027
Information Technology · University of Greenwich (UK) - Ho Chi Minh Campus · expected graduation 08/2027. Cumulative GPA 3.6/4.0.	
Youth Leader · Level 2	2018-2025
My Tho Diocese · Executive Board (chanhtoa.tnttgiaophanmytho.online) · 7 years of youth leadership, event coordination and training.	
English	VSTEP B2
Level 4, 2024 · reads technical documentation.	

PROJECTS

Hugo Studio - An ecosystem of digital tools	04/2026 - now
Personal project · Design & full-stack development · Operations · Demo · hugowishpax.studio	
- Designed a shared architecture across many apps: one identity layer, points wallet, real-time notifications (React, Node.js, MongoDB, WebSocket). - Deployed and operated production alone: domains, PWA delivery, log reading, resolving a provider quota overrun.	
Chanh Toa My Tho - Parish information portal	08/2026 - now
Real users · Design & full-stack development · Demo · chanhtoa.tnttgiaophanmytho.online · Source · GitHub (github.com/HuynhDutruong/FAQ)	
- Full-stack development in Next.js, TypeScript and Firestore; server-side rendering to make reference content searchable. - Integrated the Facebook Graph API for automatic content sync; secured the key server-side with Firestore rules.	
M-Hike - Hiking app for iOS & Android	06-09/2026
Mobile development coursework · Design & full-stack development · Demo · hiking.hugowishpax.studio · Source · GitHub (github.com/Hugo-huy2004/Hiking_App)	
- Built a mobile app for two platforms: React Native (Expo, TypeScript) and native Android in Java. - Designed an offline-first architecture: local SQLite as the source of truth, Firebase background sync, GPS data handling.	

HWJ - Fine jewellery platform

01-04/2026

[Personal project](#) · [Design & full-stack development](#) · [Demo](#) · [hwj-demo.hugowishpax.studio](#) · [Source](#) · [GitHub \(github.com/Hugo-huy2004/HWJ_demo\)](#)

- **Built a full-stack commerce system:** React, Node.js, MongoDB, Google OAuth authentication, Cloudinary media storage.
- **Integrated a live metals-price API** into the product pricing flow.

Minh Oi Media - Wedding studio website

03-04/2026

[Real client](#) · [Design & full-stack development](#) · [Demo](#) · [minhoimedia.digital](#) · [Source](#) · [GitHub \(github.com/Hugo-huy2004/job_01_MinhOi_Media_studio\)](#)

- **Worked directly with a client:** requirements, scoping, handover, and training them to edit it themselves.
- **Optimised performance and responsiveness** in plain HTML, CSS and JavaScript, with no framework dependency.

L3GO Coffee - Café website

2026

[With Jason Phan](#) · [UI/UX design](#) · [Demo](#) · [legocoffee.hwagfu.dev](#)

- **Owned UI/UX:** colour system, type rhythm, interaction flow and image-cropping standards, handed to another developer.
