

PROFILE

Short-term: Excel in university studies and undertake a software engineering internship to master production workflows and build impactful digital products.

Long-term: Pursue a Master's degree to strengthen academic foundations; concurrently advance as an Independent Full-Stack Engineer (Freelancer) building premium end-to-end technology solutions.

SKILLS

Languages

JavaScript · TypeScript · Java · Python · HTML/CSS · SQL

Frontend

React · Next.js · React Native (Expo) · Tailwind CSS · PWA · Capacitor

Backend & data

Node.js · Express · REST APIs · WebSocket · MongoDB · Firebase/Firestore · SQLite

DevOps & integrations

Git · Vercel · Render · Cloudflare · Netlify · Google OAuth · Cloudinary · Facebook Graph API

Soft Skills

Team Leadership · Product Ideation · Public Speaking · Event Coordination · Problem Solving

EDUCATION

Greenwich Vietnam 2023-2027
Information Technology · University of Greenwich (UK) - Ho Chi Minh Campus · expected graduation 08/2027. Cumulative GPA 3.6/4.0.

Youth Leader · Level 2 2018-2025
My Tho Diocese · Executive Board · 7 years of youth leadership, event coordination and training.

English VSTEP B2
Level 4, 2024 · reads technical documentation.

PROJECTS

Hugo Studio - An ecosystem of digital tools

04/2026 - now

Personal project · Design & full-stack development · Operations · Demo · hugowishpax.studio

- Designed a shared architecture across many apps: one identity layer, points wallet, real-time notifications (React, Node.js, MongoDB, WebSocket).
- Deployed and operated production alone: domains, PWA delivery, log reading, resolving a provider quota overrun.

Chanh Toa My Tho - Parish information portal

08/2026 - now

Real users · Design & full-stack development · Demo · chanhtoa.tnttgiaophanmytho.online · Source · GitHub

- Full-stack development in Next.js, TypeScript and Firestore; server-side rendering to make reference content searchable.
- Integrated the Facebook Graph API for automatic content sync; secured the key server-side with Firestore rules.

M-Hike - Hiking app for iOS & Android

06-09/2026

Mobile development coursework · Design & full-stack development · Demo · hiking.hugowishpax.studio · Source · GitHub

- Built a mobile app for two platforms: React Native (Expo, TypeScript) and native Android in Java.
- Designed an offline-first architecture: local SQLite as the source of truth, Firebase background sync, GPS data handling.

HWJ - Fine jewellery platform

01-04/2026

Personal project · Design & full-stack development · Demo · hwj-demo.hugowishpax.studio · Source · GitHub

- Built a full-stack commerce system: React, Node.js, MongoDB, Google OAuth authentication, Cloudinary media storage.
- Integrated a live metals-price API into the product pricing flow.

Minh Oi Media - Wedding studio website

03-04/2026

Real client · Design & full-stack development · Demo · minhoimedia.digital · Source · GitHub

- Worked directly with a client: requirements, scoping, handover, and training them to edit it themselves.
- Optimised performance and responsiveness in plain HTML, CSS and JavaScript, with no framework dependency.

L3GO Coffee - Café website

2026

With Jason Phan · UI/UX design · Demo · legocoffee.hwagfu.dev

- Owned UI/UX: colour system, type rhythm, interaction flow and image-cropping standards, handed to another developer.
