6 projects delivered · 4 live with real users · B2 VSTEP English

Portfolio · www.hugowishpax.studio/introduction

PROFILE

IT student at Greenwich Vietnam.
Six projects delivered, most end to end: interface design, browser and server code, deployment and operation. Strongest at **interface work and system integration**.
Seeking an Information Technology internship.

SKILLS

Interface design

Layout · Visual hierarchy · Type rhythm ·
 Colour tokens · Responsive · Dark mode ·
 Multilingual

Built in the browser with React and Tailwind, tuned on the running build - no Figma.

Engineering

React · Next.js · TypeScript · React Native ·
 Node.js · MongoDB · Firebase · Tailwind ·
 PWA · Git

Both ends: interface and server, plus a mobile app (React Native, Java).

Operations

Deployment · Log reading & incident response ·
 Performance · Technical SEO ·
 Code review

Run in production by me: domains, deploys, monitoring, incident response.

Foundation: Python, Express, WebSocket, SQLite ·
 deployed on Vercel, Render, Cloudflare, Netlify.

EDUCATION & ACTIVITIES

Greenwich Vietnam 2022-2027

Information Technology · University of Greenwich (UK) with FPT University ·
 graduating 10/2027.

Youth group leader - Catechist (level 2)

Children's activities, public speaking, group management.

English VSTEP B2

Level 4, 2024 · reads technical documentation.

PROJECTS

Hugo Studio - An ecosystem of digital tools

04/2026 - now

Personal project · Design & full-stack development · Operations · hugowishpax.studio

- **Designed a shared architecture** across many apps: one identity layer, points wallet, real-time notifications (React, Node.js, MongoDB, WebSocket).
- **Deployed and operated production alone:** domains, PWA delivery, log reading, resolving a provider quota overrun.

Chanh Toa My Tho - Parish information portal

08/2026 - now

Real users · Design & full-stack development · Demo · chanhtoa.tnttgiaophanmytho.online · Source · github.com/HuynhDutruong/FAQ

- **Full-stack development** in Next.js, TypeScript and Firestore; server-side rendering to make reference content searchable.
- **Integrated the Facebook Graph API** for automatic content sync; secured the key server-side with Firestore rules.

M-Hike - Hiking app for iOS & Android

06-09/2026

Mobile development coursework · Design & full-stack development · Demo · hiking.hugowishpax.studio · Source · github.com/Hugo-huy2004/Hiking_App

- **Built a mobile app for two platforms:** React Native (Expo, TypeScript) and native Android in Java.
- **Designed an offline-first architecture:** local SQLite as the source of truth, Firebase background sync, GPS data handling.

HWJ - Fine jewellery platform

01-04/2026

Personal project · Design & full-stack development · Demo · hwj-demo.hugowishpax.studio · Source · github.com/Hugo-huy2004/HWJ_demo

- **Built a full-stack commerce system:** React, Node.js, MongoDB, Google OAuth authentication, Cloudinary media storage.
- **Integrated a live metals-price API** into the product pricing flow.

Minh Oi Media - Wedding studio website

03-04/2026

Real client · Design & full-stack development · Demo · minhoimedia.digital · Source · github.com/Hugo-huy2004/job_01_MinhOi_Media_studio

- **Worked directly with a client:** requirements, scoping, handover, and training them to edit it themselves.
- **Optimised performance and responsiveness** in plain HTML, CSS and JavaScript, with no framework dependency.

L3GO Coffee - Café website

2026

With Jason Phan · UI/UX design · legocoffee.hwagfu.dev

- **Owned UI/UX:** colour system, type rhythm, interaction flow and image-cropping standards, handed to another developer.
- **Collaborated in a team** with a clear boundary between design and implementation.
