01 live product    02 client & team projects    B2 VSTEP English

## PROFILE

I design products from problem framing and user flows through to implementation-ready interfaces. My hands-on experience includes client collaboration, team hand-off, and running Hugo Studio in production. I bridge design and engineering through clear prototypes, responsive execution, and post-handoff QA. **I am seeking a Product/UI/UX Design internship**, with frontend as a supporting skill.

## SKILLS

### Product & UI/UX

- Figma
 User Flows
 Wireframing
- Prototyping
 Responsive
- Design Systems

Sharpened on 2 real client & team projects — from requirements gathering to developer hand-off.

### Frontend

- React
 JavaScript
 HTML/CSS
- Tailwind CSS
 PWA
 Capacitor
- Git

Learned at Greenwich (Web Programming) and used hands-on in the HWJ coursework and Hugo Studio.

### AI-assisted development & operations

- Spec & code review
 Testing
- Deployment
 Log analysis
- Scrum / Agile

I use AI to accelerate research and delivery while owning the specification, review, testing, and final quality.

University foundation: C#, Python, PHP, MySQL, Node.js/Express, MongoDB, WebSocket — enough to read and integrate backend code. Deployed on Vercel, Render, and Cloudflare.

## LANGUAGES

English VSTEP B2

Level 4, 2024 · able to read technical documentation.

## FLAGSHIP PROJECT

### Hugo Studio — Digital toolkit ecosystem for students

04/2026 — present

Product owner · UI/UX · Frontend integration · Operations · [hugowishpax.studio](https://hugowishpax.studio)

- Designed a shared experience system for a PWA/native portal covering member identity, store, rewards wallet, and realtime notifications.
- Designed **Bio Studio**: personal-page creation flow, 3 themes, live preview before publishing, and public URLs with dynamic SEO.
- Translated designs into React, verified responsive behavior, and operated production from domains and deployments to incident resolution.

## OTHER PROJECT EXPERIENCE

### Minh Oi Media — Photo studio website (real client)

Mar–Apr 2026

UI/UX Design

Worked directly with the client; portfolio layout and booking flow · [minhoimedia.digital](https://minhoimedia.digital)

### HWJ — Fine jewellery platform (team coursework)

Jan–Apr 2026

Frontend Developer · UI/UX

Built the responsive frontend, coordinating with the backend teammate · [demohwj.hugowishpax.studio](https://demohwj.hugowishpax.studio)

## EDUCATION & LEADERSHIP

### Greenwich Vietnam

2022–2027

Information Technology · with the University of Greenwich (UK) and FPT University · expected graduation 10/2027.

### Volunteer Youth Group Leader & Instructor, Level 2

Led children's activities, spoke to groups, and coordinated teams.
