PROJECTS

Hugo Studio - An ecosystem of digital tools

04/2026 - now

Personal project · Design & full-stack development · Operations · Demo · hugowishpax.studio

- **Designed a shared architecture** across many apps: one identity layer, points wallet, real-time notifications (React, Node.js, MongoDB, WebSocket).
- **Deployed and operated production alone:** domains, PWA delivery, log reading, resolving a provider quota overrun.

Chanh Toa My Tho - Parish information portal

08/2026 - now

Real users · Design & full-stack development · Demo · chanhtoa.tntgiaophanmytho.online · Source · GitHub

- **Full-stack development** in Next.js, TypeScript and Firestore; server-side rendering to make reference content searchable.
- **Integrated the Facebook Graph API** for automatic content sync; secured the key server-side with Firestore rules.

M-Hike - Hiking app for iOS & Android

06-09/2026

Mobile development coursework · Design & full-stack development · Demo · hiking.hugowishpax.studio · Source · GitHub

- **Built a mobile app for two platforms:** React Native (Expo, TypeScript) and native Android in Java.
- **Designed an offline-first architecture:** local SQLite as the source of truth, Firebase background sync, GPS data handling.

HWJ - Fine jewellery platform

01-04/2026

Personal project · Design & full-stack development · Demo · hwj-demo.hugowishpax.studio · Source · GitHub

- **Built a full-stack commerce system:** React, Node.js, MongoDB, Google OAuth authentication, Cloudinary media storage.
- **Integrated a live metals-price API** into the product pricing flow.

Minh Oi Media - Wedding studio website

03-04/2026

Real client · Design & full-stack development · Demo · minhoimedia.digital · Source · GitHub

- **Worked directly with a client:** requirements, scoping, handover, and training them to edit it themselves.
- **Optimised performance and responsiveness** in plain HTML, CSS and JavaScript, with no framework dependency.

L3GO Coffee - Café website

2026

With Jason Phan · UI/UX design · Demo · legocoffee.hwagfu.dev

- **Owned UI/UX:** colour system, type rhythm, interaction flow and image-cropping standards, handed to another developer.
